Letter dated 4 March 2021 from the Permanent Representative of the Islamic Republic of Iran to the United Nations addressed to the President of the Security Council

I am writing to you with reference to the letter dated 2 March 2021 from the representative of the Israeli regime, wherein, as standard practice, unfounded allegations have been made against the Islamic Republic of Iran, which are hereby rejected.

The incident referred to in that letter has all the characteristics of a complicated false flag operation by actors in order to pursue their malign policies and to advance their illegitimate objectives.

The Israeli regime that threatens Iran on an almost daily basis, desperately attempts, by accusing Iran as well as playing victim, to distract attention away from all its destabilizing acts and malign practices across the region.

The international community must not lose sight of the crimes, brutalities and threats of the Israeli regime, in particular its occupation of Palestine and parts of other countries, as well as its persistent military adventurism in such a volatile region as the Middle East.

That regime must therefore be held accountable for all such unlawful and reckless activities and also be reminded that it will bear all consequences as a result of any possible miscalculation.

It would be highly appreciated if you would have the present letter issued as a document of the Security Council.
